7772 HERPES SIMPLEX VIRUS TYPE 1 AND/OR 2 ANTIBODIES, IGM BY ELISA

ARUP is inactivating HSV antibody IgM testing in the interest of patient care and to align with testing guidelines. The Centers for Disease Control and Prevention (CDC), Infectious Diseases Society of America (IDSA), and American Academy of Pediatrics (AAP) do not recommend IgM antibody testing for the diagnosis of HSV. For this reason, no replacement testing will be offered.

Physicians Laboratory will continue to offer HSV IgG testing, which is performed at our facility. The test information is provided below.
